

# BIOINFORMATICS INTERNSHIP

Session six

## FUN FACT

- In a recent public survey of the 100 most desirable jobs, bioinformatician was a close second to astronaut. Survey completed on twitter @Dynamics.

# COSMO

- Computer cluster
- Set conda environment as base
- Tmux

## CREATING REPEATS

- Use `random.shuffle(<collection>)`
- Use `random.randint(<start>, <stop>)`
  - Between 50 and 100
  - All three repeats must add up to 300
- Use a math module to combine each of the results of the now shuffled, full length variables.
- Make sure it will not total <300>
